

## Trailer types and sizes

# Conestoga trailers

A specialised flatbed trailer with a retractable tarp-on-frame system. It offers protection from the elements and allows for easy side-loading and unloading.

The trailer's design is inspired by the historic Conestoga wagons used in 19th-century America.

### Details at a glance

**Protection:** The retractable tarp shields cargo from rain, wind and debris, ensuring goods arrive in excellent condition.

**Efficient loading and unloading:** Quick and easy access from the side, top and rear of the trailer reduces time and increases efficiency.

**Versatility:** Conestoga trailers can accommodate different types of cargo, including non-standard-shaped and oversized items.

**Enhanced security:** Tarps can be securely closed and locked which adds an extra layer of security and deters theft and unauthorized access during transit.

**Weight capacity:** up to 44,000 lbs (20,000 kgs)

### Dimensions

#### Standard flatbed Conestoga

Length: 48 ft to 53 ft (14.63 to 16.15 m)

Width: 8.25 ft (2.51 m)

Door height: 8 ft (2.43 m)
