

Trailer types and sizes

Dry van (box) trailers

The most popular choice for transporting non-perishable goods, dry van trailers are fully enclosed to protect cargo from external elements. Unlike refrigerated trailers, they do not have temperature control.

Details at a glance

Versatility: Ideal for transporting boxed, palletised or loose freight.

Protection: Enclosed design keeps goods safe from environmental conditions.

Cost-effective: Standardised design streamlines loading and unloading, reducing operational costs.

Benefits: Trailers can be used to ship a wide range of goods at a lower cost than special equipment. They are secure and lockable.

Weight capacity: 42,000 to 45,000 lbs (19,278 to 20,412 kg)

Dimensions

28-foot

Length: 28 ft (8.53 m)
Width: 8.5 ft (2.59 m)
Height: 13.5 ft (4.11 m)
Interior height, approx.: 8.4 ft (2.57 m)

45-foot

Length: 45 ft (13.72 m)
Width: 8.5 ft (2.59 m)
Height: 13.5 ft (4.11 m)
Interior height, approx.: 8.4 ft (2.57 m)

48-foot

Length: 48 ft (14.63 m)
Width: 8.5 ft (2.59 m)
Height: 13.5 ft (4.11 m)
Interior height, approx.: 8.4 ft (2.57 m)

53-foot

Length: 53 ft (16.15 m)
Width: 8.5 ft (2.59 m)
Height: 13.5 ft (4.11 m)
Interior height, approx.: 8.4 ft (2.57m)

High cube

Length: 48 ft or 53 ft (14.63 m or 16.15 m)
Width: 8.5 ft (2.59 m)
Height: 13.5 ft (4.11 m)
Interior height, approx.: 9.1 ft (2.79 m)
